

Fig. 10.10: Section of a road with a vertical curve. The diagram shows a road profile with a vertical curve. Key points include 'via Bertulla' at the start of the curve, 'rio San Salvatore' at the end of the curve, and a 'punto di incontro' (meeting point) at the end of the road. The road is divided into segments with different elevations. The elevation at the start is 23.46, at the end is 23.19, and at the meeting point is 21.00. The road is shown with a cross-section of a roadbed and a dashed line indicating the horizontal alignment.

Topographic profile showing the elevation of the terrain and the road. The profile is divided into segments with the following data:

Segment	Partial Distance (m)	Terrain Quotient
1	8.55	23.80
2	5.45	23.15
3	4.25	23.15, 19.80
4	0.75	22.38
5	0.80	19.80, 23.03
6	0.50	23.85, 22.39
7	3.05	21.08, 19.80

Key features and elevation points:

- 22.46 (cyan line)
- 20.53 (orange line)
- 18.00 (black line)
- 20.76 (blue line)
- 20.48 (red line)
- parcheo pubblico
- via Bertulla
- via San Salvatore
- vineto

Technical drawing showing a rectangular structure with dimensions and elevations. The structure is defined by a red dashed line. Key dimensions and elevations are:

- Top elevation: 13.61 (orange line)
- Left side elevation: 2.40 (red line)
- Top width: 3.70 (red line)
- Right side elevation: 11.44 (blue line) and 11.05 (red line)
- Bottom width: 7.00 (black line)
- Distances from the left edge to the structure boundaries: 2.93, 3.10, 0.90, 1.20, and 5.40.
- Distances from the right edge to the structure boundaries: 13.00, 10.13, 10.13, 13.30, 13.43, and 13.25.

The structure is labeled "via Bertulla" and "rio San Salvatore".
